# Department Shredder

## 41630 DAHLE CleanTEC® Series

CleanTEC® Filtration | Safe Technology | ESP Protection | SmartPower Management | EvenFlow Lubricator | Made In Germany

The DAHLE CleanTEC® is the World's only shredder with a fine dust filtration system. This integrated system collects fine dust particles created around the cutting cylinders, and forces them into a specialized filter on the back of each machine. This DAHLE CleanTEC® filter permanently traps up to 98% of the fine dust, and provides a cleaner, healthier work environment.

Safety continues to be the priority at Dahle, and the DAHLE CleanTEC® 41630 shredder features the most advanced safety features in the industry. Equipped with the revolutionary Safe Technology Package, each shredder offers Verbal and Contact Emergency Shutdown. In the event of an emergency, simply say "Stop" or tap the top cover of the machine, and the shredder immediately stops. The 16" feed opening is reinforced with steel and only large enough to accept paper. As an added safeguard, this opening contains electronic sensors that will turn the shredder off, should your fingers get too close. An emergency shutoff switch is also located on the back of the machine as yet another level of personal safety.

The easy-to-use command dial controls all of the machine's functions and notifies the user when sheet capacity is exceeded, when to replace the filter, and even when to change the shred bag. Equipped with ESP (Electronic Sensing Protection), the shredder "Knows" how much paper you're trying to shred and won't allow sheet capacity to be exceeded.

The DAHLE CleanTEC® 41630 operates using the intuitive SmartPower Energy Management System. This multi-stage system reduces power consumption after ten minutes of sitting idle (sleep mode), and completely powers down after 30 minutes of inactivity. Dahle SmartPower will appeal to those interested in conserving energy as well as reducing electrical costs.

Just like any fine tuned machine, your shredder needs to be properly oiled to run at peak performance. This shredder is equipped with the Dahle EvenFlow Lubricator. This automatic oiler provides slow, continuous lubrication across the entire cutting mechanism and ensures peak shredder performance.

## Features

- Feed Opening: 16"
- Sheet Capacity: 11/13
- Shred Size: 1/32" x 7/16"
- Security Level: P6 (old level 5)
- DAHLE CleanTEC® Filtration
- Safe Technology
- SmartPower Management
- EvenFlow Lubricator

*The DAHLE CleanTEC® filter traps up to 98% of the fine dust and provides a healthier work environment.*

*The easy-to-use command dial controls all of the shredder's functions and illuminates the proximity to sheet capacity.*

*The EvenFlow Lubricator automatic oiler provides slow, continuous lubrication & ensures peak performance.*

## Specifications

| Model | Feed Width | Capacity #20 / #16 | Security Level | Shred Size | Waste Volume | Speed | Decibel Level | Features/Capabilities | | | | | | | Dimensions | Weight |
